PART C - DECLARATION OF APPLICANT:

I, (Name of Applicant) _____, of

(Address of applicant), _____

do solemnly and sincerely declare that the photographs are true and current images of myself, the applicant, and that all documents and information provided are specific to myself, and are true and correct. I understand and agree to abide by the conditions set out in the attached document "Conditions of ADAS Certification".

I understand that in making this application for renewal of ADAS certification, I am certifying that I:

- am current in the practical and theoretical skills and knowledge relevant to my level of ADAS certification as identified in the ADAS Diving Competency Standards;
- hold current First Aid, Oxygen Management, and CPR qualifications in accordance with Australian national requirements;
- have current medical certificates that meet requirements for occupational diving or supervising.

I also understand that I may be required to demonstrate to ADAS by the provision of log book and other relevant equivalent evidence how those relevant skills and knowledge have been maintained.

(Signature of applicant) _____

PART D – CHECKLIST

Please complete this checklist to ensure that all requirements are completed

Required	Please tick
Completed application (Parts A, B, C, D and E) (PDF format for email applications)	<input type="checkbox"/>
High quality passport style photos (JPEG format for email applications)	<input type="checkbox"/>
High quality copy of photo and identity page of passport, or acceptable alternative (PDF format for email applications)	<input type="checkbox"/>
Payment in Australian dollars (including 'rejoining fee' if applicable)	<input type="checkbox"/>
Declaration on page 2 has been signed	<input type="checkbox"/>

Additional requirements if applicable	Please tick
<p>Proof of Competency: Applicants over 2 years past their original expiry date must show proof of competency before their certification can be renewed.</p> <p>Supervisors must submit at least 20 certified logged supervisions undertaken within the previous 24 months. These logs must be signed by a company contractor.</p> <p>Applicants who are 3 or more years past their original expiry date, must undertake further proof of competency assessments.</p> <p>Please contact ADAS for more information if your certification is 3 or more years past expiry, or if you cannot meet the above requirements.</p>	<input type="checkbox"/>

PART E - PAYMENT DETAILS

<p><input checked="" type="checkbox"/> Please indicate what method of payment you are using</p>	
<p>Cheque, money order, draft or international bank cheque</p>	<p>Please attach cheque, money order, draft or international bank cheque</p>
<p>Credit Card</p> <p>NOTE: Visa or MasterCard only</p>	<p>Card number: _____</p> <p>Date of expiry: ____ / ____</p> <p>Name on card: _____</p>
<p>EFT Transfer:</p> <p>Account Name: ADAS Bank: National Australia Bank BSB: 082 707 Account No: 55764 9982 Swift code: NATAAU3302S Physical Address of Bank: 138 Molesworth Street, Lismore NSW 2480 AUSTRALIA</p>	<p>To help us identify your payment, please quote your Name and ADAS Certificate Number in the <i>Transaction Description</i> area of your internet banking webpage when doing an electronic transfer into the ADAS account.</p> <p>Date of transfer: _____</p> <p>Reference number: _____</p>

Note: ADAS has policies for declined credit cards/dishonoured cheques. Declined credit cards will incur a fee of \$10. In the case of dishonoured cheques, an automatic fee of \$15 will be charged to recover the fee charged by our bank and office time in handling the issue.

THE FOLLOWING PAGES ARE TO BE RETAINED BY THE APPLICANT

Conditions of ADAS Certification

ADAS certification is awarded to individuals who demonstrate that they meet the competencies detailed in the ADAS competence requirements. ADAS certification brings with it a number of responsibilities and the following provisions are based on the recognition that ADAS certification is conditional upon the certified person operating safely and sensibly within the law at all times; or where there is no specific legislation, in compliance with recognised standards and/or codes of practice. These measures are designed to ensure that the present high level of professional standing of ADAS and ADAS certificate holders is maintained.

Basis of Certification

ADAS certificate holders are certified on the basis that they must operate in compliance with relevant legislation and /or standards. Certification may be suspended or cancelled if certificate holders are proved to be operating unsafely or illegally.

ADAS Certificates of Competency are only valid for diving if certificate holders are certified "medically fit to dive" in accordance with AS/NZS 2299.1 (2007) or approved international equivalent, and are in possession of an Occupational Diving Medical Certificate issued by a medical practitioner trained in underwater medicine by an organisation acceptable to ADAS. This condition does not apply to ADAS certification for Diving Supervisors, Life Support Technicians, Life Support Supervisors, etc, when those persons are not required to dive.

Certification is for five years, other than Diver Medical Technician which is for 3 years, from the date of issue. After that time, certificate holders must apply for renewal of their certification based on demonstration of continued proficiency at the level of competency for which they are certified.

Renewal of Certification

Certification will be renewed on the basis of the applicant certifying that he/she has retained their operating competency over the previous period of certification.

Applicants must be able to establish on request by ADAS (eg, by log book and/or similar evidence demonstrating current practice in diving and/or other relevant activities) how the relevant skills and knowledge identified by ADAS in the relevant ADAS competence requirements have been maintained.

As a minimum, this will generally be held to be:

- For divers - the undertaking of 20 dives within the 24 month period prior to renewal
- For supervisors - the supervision of 20 dives within the 24 month period prior to renewal
- For LST's - 200 LST panel hours within the 24 month period prior to renewal.

Acceptable alternatives could be:

- A course of training at a higher level of proficiency
- Undertaking an assessment and gaining a 'Letter of Competency' by an appropriately qualified ADAS or IMCA supervisor attesting that the applicant continues to possess the required level of competency
- Completing a refresher course at an appropriately accredited training establishment.

Applicants who cannot fulfil any of these criteria should contact ADAS to discuss their situation prior to applying for renewal.

ADAS will conduct random audits of renewing applicants and require such verification.

An inability to satisfactorily certify and/or demonstrate such competency will result in the certificate holder being required to undertake an approved form of currency updating or, failing this, to surrender his/her Certificate of Competency (see below).

The applicant is required to supply a Declaration of Applicant as attached to the renewal application form certifying that they are current in the practical and theoretical skills and knowledge relevant to their level of ADAS certification as identified in the ADAS competence requirements.

ADAS requires applicants to apply for renewal of their ADAS licence by the date of expiry on the licence held. Failure to do so renders the certificate holder's certification invalid and details are removed from the active data base. Re-issue of certification may incur a rejoining fee to cover the administrative expenses involved in reinstating divers on the database, processing late applications, and verifying continued proficiency evidence which the applicant is required to provide at the level of the ADAS licence being renewed.

Applications received beyond the date of expiry of the ADAS licence are processed as follows:

- Applications received **within 2 years** after the date of expiry of the card will be renewed from the original date of expiry
- Applications received **after 2 years** from the original date of expiry of the card will incur a rejoining fee of \$150. This fee is additional to the licence renewal fee. Renewal will provide 5 full years of certification from the date of issue of the renewed licence. Applicants also have to show proof of continued proficiency before their certification is renewed.

Suspension or Cancellation of a Certificate of Competency

ADAS may suspend or cancel a certificate of competency if it is satisfied that the holder of the certificate:

- Obtained the certificate on the basis of false or misleading information or a failure to disclose or provide required information
- Has operated in a manner which endangers the health or safety of the holder or any other person
- Has failed to operate in compliance with relevant legislation, codes and/or standards
- Is no longer capable of performing to the level of competency specified by the certificate.

Appeal against Suspension or Cancellation of Certificate of Competency

Before suspending or cancelling a Certificate of Competency, ADAS will:

- Notify the holder of the certificate in writing by registered mail, to the last known address of the accredited diver, of the proposed suspension or cancellation
- Give the holder of the certificate 28 days, from the time of service by registered mail to the last known address of the certificate holder, to make representations in writing to ADAS in relation to the proposed suspension or cancellation
- Through the ADAS Appeals Committee, take reasonable regard of the representations made by the holder of the certificate [the ADAS Appeals Committee is composed of representatives of the relevant diving industry, and/or union, and/or the State/Territory].

The full ADAS Grievance Policy and procedures may be found on the ADAS website www.adas.org.au. Applicants who are unsuccessful may seek redress through civil legal action.

Notification of Suspension or Cancellation of Certificate of Competency

If, after having regard to any representations made by the holder of the certificate, ADAS decides to proceed with the proposed suspension or cancellation, ADAS will inform the certificate holder in writing by registered mail to their last known address:

- Stating that the certificate is suspended or cancelled
- In the case of a suspension, stating the period for which the certificate is suspended
- Giving the reasons for the suspension or cancellation.

Date of Effect of Suspension or Cancellation of Certificate of Competency

The suspension or cancellation takes effect on the date on which notice of the suspension or cancellation is served on the certificate holder by registered mail at their last known address, or on any other later date which is specified in the notice.

Notify Others of Suspension or Cancellation of Certificate of Competency

ADAS may inform others (the certificate holder's employer, other contractors, State/Territory regulators, etc) of certificates that are cancelled or suspended.

Surrender of Cancelled Certificates of Competency

The holder of an ADAS Certificate of Competency that is cancelled must return the certificate to ADAS within the period specified in the notice of cancellation.
